

**Tips For
Moving On To Middle School,
Moving On To 5th/6th Grade,
and Summer Fun!**

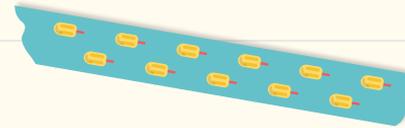

Advice For Transitioning Into 5th/6th Grade

“Always be yourself and be nice to others!” - Claire

Yaretzi says: “For all of the 5th graders that are going to be 6th graders I just want to say that there will be times that are hard but remember to never give up!”

“My advice for new 5th graders coming to Johnson would be to talk to the teachers when you need help. They are very helpful and can help you feel better about things.”
-Lila

“Don’t give up. It is going to be tough, because you will have midterms and a different kind of school schedule. But it is ok! You will get your groove on in no time. Always have confidence in yourself. And if you feel that you have nothing to be confident about, just think, wow, I just lived during a pandemic and now I’m in middle school! What an accomplishment! Don’t give up and always believe in yourself.” - Isaac

“Hollywood makes middle school look awful, but real life middle school is actually pretty good. Writing your class hour on each notebook and folder makes it easier to organize and faster to find what you need for each class.” - Rocco

“ Having 2 binders is a great way to keep organized. You can have one for hours 1-3 and 4-6 or you can have one for your first half of the day and one for the second half. Having your work together and organized is very useful because you don’t always have time to make it to your locker.”

“The best thing to do is make sure you know how to use a combination lock and keep your folders organized.” - Gabe

Advice For Moving On To Middle School

“Make sure you stay organized and are prepared for each class.” - Lillian

“Don’t be too nervous because the teachers can help you and if you get lost ask a friend or a staff member where your class is and don’t be stressed out about getting to class on time the first week, they will let it slide.”
-Ivy

“Just be true to who you are and speak up when you have the chance. Ask questions when you need help because it is better to have more answers to questions than questions with no answers.”
-Adrianna

“Going into middle school is not something you need to stress about, keep a positive attitude, get your work done, and you’ll be fine.”
-Zoe
