

October 15, 2020

Dear Prospective LPS Families,

The purpose of this letter is to invite our non-LPS families to explore the exceptional educational and enrichment opportunities available to your children in your neighborhood public schools. Through many decades of community support and partnership, we have created school environments that nurture, encourage, and lift each child toward their dreams and beyond.

Likely, many have already heard of our special academic programs which include advanced and focused curricular offerings such as Math, Science, and Computers (MSC), Creative and Performing Arts (CAPA), Global Education, and the International Baccalaureate (IB) Diploma Program.

LPS students have a vast array of curricular offerings in instrumental and vocal music, the visual and performing arts, business, world languages, and health and fitness. Each of our middle and high schools have STEM pathway courses that lead into the engineering, computer science, and the health field careers represented through courses at our future-focused Livonia Career Technical Center; but that's not all...

LPS students are participants in an extensive offering of varsity and sub-varsity athletic programs that include lacrosse, swimming, and bowling. Our student-athletes compete with zeal and are awarded numerous individual and team awards. School clubs that range from the Grilled Cheese Club to the National Honor Society connect students to their individual interests and broaden their social skills. Opportunities in student government develop and hone leadership skills; but that's not all...

Through the consistent and stable financial support of the our LPS community, each of our school buildings has recently experienced a total makeover! Every classroom has received renovations and technological upgrades and our three high schools have new Performing Arts Centers. Our high school athletic fields have new turf skins; our competitive gymnasiums have new flooring. Add 'facilities' as another of our LPS points of pride; but that's not all...

All these academic and whole-child, soft-skill development, K-12 opportunities take place under the supervision of dedicated and caring professionals who contribute positive energy to a respectful climate and culture for all. We expect excellence of ourselves and of others, and commit ourselves to "Every student, every day; whatever it takes."

Please visit and explore our Livonia Public Schools website for more in-depth information. Many of the opportunities and programs referenced in this letter can be found under the 'Programs' tab or the 'Schools' tab of the LPS website. Non-LPS students interested in the MSC Program at Churchill High School should carefully adhere to the application due date as shown, i.e. November 19, 2020. Please also feel free to call or email any school principal if you have questions or would like to tour a specific school. School boundary maps are shown on the website under the 'Parents' tab.

Thank you for your consideration that the Livonia Public Schools be included in the educational, emotional, and social growth of your child. We look forward to our partnership to strengthen our school culture, stretch individual potential, and to impact the learning trajectory of our students.

Sincerely,

Daniel R. Willenborg
Director of Secondary Programs
