As we complete the school year with the unique challenge of moving instruction to an online format, the Digital Divide in the LPS community has become strikingly apparent. There are currently at least 72 LPS students who do not have access to internet and cannot access online learning. YOU CAN HELP!

For an initial hot spot purchase of $75, and $50 a month, a student can have full access to online educational resources. Please consider making an extraordinary difference in the academic and social/emotional life of a child by supporting technological access for all of our students.

Build bridges to learning for LPS students. Donate safely using PayPal on the LPS Education Foundation Website: www.lpsfoundation.org.

Choose a Sponsor level, or choose your own amount. Every dollar matters!
