Dear Parents and Community Members:

We are pleased to present you with the Annual Education Report (AER) which provides key information about the continuous improvement goals and educational progress of Hayes Elementary School students based on 2020-2021 assessment results. The AER addresses the complex reporting information required by federal law and some requirements of state laws. The school's report contains information about student assessment, accountability and teacher quality. If you have any questions about the AER, please contact Larry Grezak, Principal of Hayes Elementary School, for assistance.

The AER is available for you to review electronically by visiting the following web site <http://hayes.olivoniapublicschools.org> or you may review a copy in the main office of our school.

For the 2020-2021 school year, schools were identified using definitions and labels as required in the Every Student Succeeds Act (ESSA). A Target Support and Improvement (TSI) school is one that has at least one underperforming student group. An Additional Targeted Support (ATS) school is one that a student subgroup performing at the same level as the lowest 5% of all schools in the state. A Comprehensive Support and Improvement (CSI) school is one whose performance is in the lowest 5% of all schools in the state or has a graduation rate at or below 67%. Some schools are not identified with any of these labels. In these cases, no label is given. Our school has not been given one of these labels.

The AER has two major sections to it that are required by state law. The information contained in the first section was compiled by district staff. It presents relevant information about our district, our academic programs, school improvement efforts, two years of results on district developed assessments and nationally norm referenced assessments. It also includes the district's parent involvement policy and specialized programs.

The second section of the report contains information provided by the Michigan Department of Education and is required to be presented in MDE format. Based on this data, our school has identified our growing economically disadvantaged subgroups of students, for whom additional interventions and supports are needed in order to increase their proficiency and to close the achievement gap in the targeted academic areas.

As a Title I school, we have in place a multi-tiered system of support that provides students with classroom support along with Title I support. These supports include the use of the research-based interventions such as the reading program, Leveled Literacy Intervention and skilled based interventions so that students can successfully read grade level material. We also provide students who are not reading at grade level, science content at their reading level. In addition, we have on-going professional development and dialogue focusing on strategies to support struggling learners. We utilize on-going assessments in order to determine the strengths and weaknesses of all students, including i-Ready reading and math diagnostic, followed by the provision of targeted learning interventions to the students that need them.

These initiatives are intended to accelerate the student achievement of subgroups.

State law requires that we also report additional information as found on the following pages.

Our collaborative efforts positively impact our school's success and student achievement.

Sincerely,

Larry Grezak
Principal
