2022-2023 Annual Education Report

Kennedy Elementary School

14201 Hubbard

Livonia, MI 48154

734 744-2745

Nicole Hunter, Interim Principal

February 1, 2023

Dear Parents and Community Members:

We are pleased to present you with the Annual Education Report (AER) which provides key information on the 2022-2023 education process for Kennedy Elementary School. The AER addresses the complex reporting information required by federal law and state laws. The school's report contains information about student assessment, accountability and teacher quality. If you have any questions about the AER, please contact Nicole Hunter, Interim Principal of Kennedy Elementary, for assistance.

The AER is available for you to review electronically by visiting the following web site <http://buchanan.livoniapublicschools.org> or you may review a copy by contacting Kennedy Elementary School office.

For the 2021-2022 school year, schools were identified based on previous years' performance using definitions and labels as required in the Every Student Succeeds Act (ESSA). A Targeted Support and Improvement (TSI) school is one that had at least one underperforming student subgroup in 2021-2022. An Additional Targeted Support (ATS) school is one that had a student subgroup performing at the same level as the lowest 5% of all schools in the state in 2021-2022. A Comprehensive Support and Improvement (CSI) school is one whose performance was in the lowest 5% of all schools in the state or had a graduation rate at or below 67% in 2021-2022. Some schools are not identified with any of those labels. In these cases, no label is given. Our school has not been given one of these labels.

The AER has two major sections to it that are required by state law. The information contained in the first section was compiled by district staff. It presents relevant information about our district, our academic programs, school improvement efforts, two years of results on district developed assessments and nationally norm referenced assessments. It also includes the district's parent involvement policy and specialized programs.

The second section of the report contains information provided by the Michigan Department of Education and is required to be presented in MDE format. Based on this data, three challenges that our school faces are students with disabilities who struggle in making adequate yearly progress in reading and writing. We also see in our data that our male students struggle with writing and score lower than our female students. Our school has identified underperforming subgroups of students, including students with disabilities and males for whom additional intervention and support is needed in order to increase their proficiency and to close the achievement gap in the targeted areas.

In place is a multi-tiered system of support, including the use of research-based interventions, such as a reading program entitled Leveled Literacy Intervention. In addition, ongoing professional development and dialogue focusing on strategies to support struggling learners takes place regularly. Ongoing analysis of formative assessment to determine the needs of all students, followed by the provision of targeted learning intervention to students in need.

These initiatives are intended to accelerate the student achievement of subgroups, including the state's Bottom 30%, that are not meeting our school's proficiency targets.

Our collaborative efforts positively impact our school's success and student achievement as evidenced by the steady reduction of students on Individualized Reading Intervention Plans.

Sincerely,

Nicole Hunter
Kennedy Interim Principal
