Dear Parents and Community Members:

We are pleased to present you with the Annual Education Report (AER) which provides key information on the 2022-2023 education process for Randolph Elementary School. The AER addresses the complex reporting information required by federal law and state laws. The school's report contains information about student assessment, accountability and teacher quality. If you have any questions about the AER, please contact Julie Linn, Principal of Randolph Elementary, for assistance.

The AER is available for you to review electronically by visiting the following web site [Randolph Website](#) or you may review a copy by contacting Randolph Elementary School office.

For the 2021-2022 school year, schools were identified based on previous years' performance using definitions and labels as required in the Every Student Succeeds Act (ESSA). A Targeted Support and Improvement (TSI) school is one that had at least one underperforming student subgroup in 2021-2022. An Additional Targeted Support (ATS) school is one that had a student subgroup performing at the same level as the lowest 5% of all schools in the state in 2021-2022. A Comprehensive Support and Improvement (CSI) school is one whose performance was in the lowest 5% of all schools in the state or had a graduation rate at or below 67% in 2021-2022. Some schools are not identified with any of those labels. In these cases, no label is given. Our school has not been given one of these labels.

The AER has two major sections to it that are required by state law. The information contained in the first section was compiled by district staff. It presents relevant information about our district, our academic programs, school improvement efforts, two years of results on district developed assessments and nationally norm referenced assessments. It also includes the district's parent involvement policy and specialized programs.

The second section of the report contains information provided by the Michigan Department of Education and is required to be presented in MDE format. Based on this data, key challenges for our school include addressing the specific academic needs of students with disabilities, economically disadvantaged students and English Language Learners. Data trends indicate that of these underperforming subgroups, students with disabilities manifest the largest achievement gaps and hence we are providing additional interventions and supports so as to increase their proficiency and close the achievement gaps in the targeted areas.

In place is a multi-tiered system of support implemented and monitored by our building's Student Achievement Team. This intervention system includes the use of the research-based interventions, such as the Leveled Literacy Intervention (LLI) program. In addition, ongoing professional development and staff dialogue focusing on instructional strategies to

support struggling learners takes place regularly within and across all grade levels. Randolph staff also engages in ongoing analysis of formative and summative assessments to determine the needs of all students, followed by the provision of targeted learning interventions for all subgroups of students in need of these supports.

The Randolph staff integrated the PBIS philosophy as well to teach routines and procedures. We have a school-wide behavior matrix that guides our decisions that is a blend of the Leader in Me and PBIS philosophies.

These initiatives are intended to accelerate the student achievement of subgroups, including the state's Bottom 30%, that are not meeting our school's proficiency targets.

Our collaborative efforts positively impact our school's success and student achievement as evidenced by the steady reduction of students on Individualized Reading Intervention Plans.

Sincerely,  
Julie Linn, Randolph Principal
