- Gross Motor - jumping, skipping, running, crab walking
- Fine Motor Activities - Cutting, coloring, gluing, drawing, painting, working with clay, etc.
- Singing songs, making and playing instruments
- Folding clothes, making beds, picking up toys, vacuuming, sweeping, etc.
- Playing board games/card games, cooking and baking with an adult, outside games
- Throwing, catching, kicking with a ball, frisbee, bean bags, etc.
- Imaginary play-puppet shows, plays, acting out stories, etc.

April Character Trait: Mindfulness

To be mindful means to be present in the moment. Practice being mindful, and focus while you read today.

Enjoy listening to relaxing music that puts you into a **mindful** mood, while you work...

Music -

Here is a fun game that ALL ages can play. It is called, "Can you put that word in a song?"

Decide what words to use. I suggest 5 different words per person. Then - you show the word...and the person seeing the word for the first time has to sing a song that has that same word in it. If no song comes to mind, make up a short song, and sing it with that word. Now, it might seem that adults would have better chances due to age and the volume of songs we have heard over the years. BUT...don't count out my students! Disney songs hold a vast amount of words (especially the movie Tangled...)

Watch Claire Crosby and her Dad try this. Keep in mind, Claire is in 1st grade!

These are word generators - if the words are too tricky, try it a few times and pick what works for you.

Library Media Center (LMC) -

Read [Senses are for Everything](#). Once you've read the book, take the quiz at the end. Then email Mrs. Hillary thillary@livoniapublicschools.org. Tell her if this book is fiction or nonfiction and your answers to the questions in the quiz.

Accommodations along with social/emotional support:

[Learning Activities to Keep Kids Busy When School Closes](#)

For accommodations in writing, students may click on the microphone in Google docs and engage in Speech to Text, if they have fine motor needs. They may also use CoWriter, already installed in all Chromebooks-this is a word predictor as the child types, very much like typing a text message on a cell phone.
