2. Take a Musical Walk

Go on a walk in your neighborhood or backyard. Notice all the different sounds that might be going on around you. Each time you notice a new sound, write down the sound or draw pictures of all the sounds that you hear. Listen very carefully. Maybe you are creating some of the sounds!

Things to Wonder About:

Was the sound long or short? High or low? Fast or slow?

Did any sounds form patterns?

Did the sound remind you of any musical instruments? Which one?

Did you make any sounds while you were listening?

Were there any sounds that remind you of a song?

What were your favorite sounds?

What one item around the house (non-electronic) would you choose to copy one of the sounds?
