Instructional Terms

Asynchronous: Asynchronous learning entails self-guided lessons and practice to be completed by the student, with adult assistance when applicable. Students should plan to do asynchronous learning for approximately three hours per day, which can occur during the time between live teaching sessions and/or outside of the regular school day. Students will also have an expectation to work on their remote platform, like i-Ready or Unique Classroom. Teachers will set up times to support students with their asynchronous learning. **Completion of assignments and lessons will be mandatory.**

Synchronous: Synchronous learning is live online instruction, taking place via Google Meet or other remote learning platforms. Students will have three 60-minute synchronous learning live online instruction periods per day. Just as with in person instruction, attendance is mandatory and will be taken daily by the teacher.
