Remote Learning Terms

Block Schedule: For remote learning, students will have a block of both synchronous and asynchronous instruction for three 100-minute periods a day. The high school day will begin at 8:15 a.m. and conclude at 2:00 p.m. during the remote learning period.

Asynchronous: Asynchronous learning entails self-guided lessons and practice to be completed by the student, with adult assistance where applicable. Students can focus on the last 40 minutes of each block as their time to work on asynchronous work. Teachers will set up times to support students with their asynchronous learning. Completion of assignments and lessons will be mandatory.

Synchronous: Synchronous learning is live online instruction, taking place via Google Meet or other remote learning platforms. Students will have three 60-minute synchronous learning live online instruction periods per day. Just as with in-person instruction, attendance is mandatory and will be taken by the teacher.
