

Summer Math Practice

Parent/Guardian/Students,

June 2022

Teachers in the Mathematics Department at Stevenson High School have put together summer practice to provide students with an opportunity to maintain skills and to be best prepared for the next math course that will be taken. Most practice materials are optional, but all are highly recommended, so that students are best prepared for the next math course.

Most courses have both print materials and online resources. Answers are provided for the print materials and online resources include videos and solutions.

To access summer practice materials, students need to join a Summer Math Google Classroom using this link: <https://classroom.google.com/c/MzYyODYzOTc2ODk2?cjc=byubx6c>
Or the Google Classroom join code: byubx6c

More information is included in Google Classroom, including how to sign up for Delta Math practice appropriate for the course that will be taken in the fall.

*Packets that are REQUIRED were copied and distributed to students at the end of the school year. If a student did not receive a packet or if it is lost, they can be printed from Google Classroom.

Summer worksheets are available for students **entering** the following courses in the fall:

- Getting Ready for Geometry (typical 9th grade course)
- Getting Ready for Accelerated Geometry (9th graders, by invitation)
- Getting Ready for Geometry B (select 9th graders)
- Getting Ready for Algebra 1
- Getting Ready for Algebra 1B
- Getting Ready for Algebra 2
- Getting Ready for Algebra 2B
- Getting Ready for Accelerated Algebra 2 * **REQUIRED** * packet is required, others are optional
- Getting Ready for Pre-Calculus
- Getting Ready for Accelerated Pre-Calculus
- Getting Ready for Calculus
- Getting Ready for AP Statistics
- Getting Ready for AP Calculus BC
