

Tentative Sixth Grade Camp Activities

***Classes are subject to change.**

Orienteering

This class teaches the basic use of a compass. Students will test their skills by following a fun beginner's orienteering course.

Pond Study

This program exposes the student to the wondrous world of the pond ecosystem. Armed with the dip nets and buckets, students will really "get into" this activity.

Wild Wonders

Learn about the many different mammals and birds that are housed at our Nature Center on a guided tour. A short discussion on each mammal or bird will be held regarding their habits and why they are at the center. Also learn about our role as an animal rehab facility.

Archery

Under the guidance of our trained instructors, students will learn basic archery techniques. Safety will be emphasized. Students will use a recurve bow and target arrows as they attempt to hit a bull's eye.

Skit Night

This two-part program begins with an actual skit class where students will learn acting techniques and skits. The second part is an evening activity, where skits will be performed.

Survival Skills and Fire Building

Students will learn basic outdoor survival strategies through the use of hands on activities. Small groups will learn how to construct various types of survival fires and then groups will attempt to build their own.

Line Dancing

Put on your dancing shoes! Our instructor will teach your group some classic dance moves mixed with modern music to give it all a new spin.

Predator/Prey Games

After a short introduction to characteristics of predator and prey animals, students will learn important concepts in predator-prey relationships through the use of fun and active games. Protective coloration, food chains and webs, adaptation, and producers and consumers are just a few of the subjects that can be covered.

High Ropes Course

Following an in-depth orientation and practice session, participants will climb the ladder into our High Ropes Challenge Course. Working with a partner on the ground and attached to a safety system, each person can choose a route to take on obstacles 25-35 feet above the ground. Equipment is provided.

Zip Line

Come experience the thrill of a ride through the trees on the 500-foot long freestanding zip-line. Equipment is provided.

Obstacle Course

On obstacles ranging from 1-3 feet off the ground, your group will traverse wire cables and swing on ropes while encountering such things as the Alligator Swamp, Cobra Island, and the Raging River.
